

For ultimate dependability, the Aqua ABW-S boasts IP68 washdown protection, meaning it's suitable for weighing messy or dusty materials in demanding environments. In addition to the easy-to-clean grade 304 stainless steel housing and platform, the pan is removable for hygienic maintenance. Overload protection helps safeguard the scale against accidental overloads for a reliable, long-lasting weighing solution. Well-suited for food processing, batching and packaging, the Aqua offers features designed to improve productivity. The bright LED displays clearly show results in the front and rear of the scale, allowing multiple users to use the same scale, while hidden colour-changing indicators light up during checkweighing to show if results are over, under or within preset limits. Percentage weighing makes baking and recipe batching effortless, while parts counting speeds up packaging tasks. Take advantage of the internal rechargeable battery for operation anywhere, including areas where access to power is limited. The Aqua's quick stabilisation time means weighing tasks are faster and more efficient.

Complete protection whatever the application. With grade 304 stainless steel, this IP68 bench scale looks the part.
